

“Could You Lift Up Your Bottom?”

Hee-jung Chang

Illustrations by Sung-hwa Chung

Hands-on activities and elementary math concepts that relate to simple geometry and differentiating, naming, and combining shapes expand this clever story about creative problem solving.

- Co-op available

A gust of wind blows Frog’s hat off her head—and it’s stuck under Elephant’s big bottom. Elephant is hungry, and he won’t budge until Frog feeds him delicious foods that have unusual shapes. She brings him a round orange, a triangular sandwich, and a rectangular piece of chocolate. But elephant still won’t move his bottom. Will Frog ever get her pretty hat back?

Hee-jung Chang is a children’s book author. Sung-wha Chung is an illustrator whose previous book is *Don’t Tell Anyone*. Her work has been honored by the Noma Concours for Picture Book Illustrations and the Korean Andersen Drawing Contest.

A Day at Grandma's

Mi-ae Lee

Illustrations by Yang-sook Choi

A gentle story about the strong bonds that connect a parent and child

- Co-op available

Yuin is spending the day at her grandmother's house. She is busy and eager to explore with Grandma, but from dawn to dusk, she thinks about—and misses—her mama at home. Yuin's mama is missing her, too. Soon enough, Yuin is home and happy again in her mother's arms! Hands-on activities and elementary concepts of time and routines expand this picture book.

Mi-ae Lee has written many children's books, and her honors include the Samsung Literature Award. Yang-sook Choi won the grand prize in the Publishers Art Competition. She has illustrated many children's books, including *Behind the Mask* and *The Name Jar*.

Who Eats First?

Ae-hae Yoon

Illustrations by Hae-won Yang

This colorful, creative book helps children understand math by teaching classification, organizing data, and predicting future outcomes

- Co-op available

Six animal friends find a delicious-looking peach. All of them are hungry and want to gobble it up. Will Giraffe get the first bite because he's the tallest? Maybe Gator will be first because his mouth is so big. Each animal wants to eat first, but there's a hilarious surprise in store! Hands-on activities and elementary math concepts that relate to classifying and placing in order as well as organizing data and measuring expand this lighthearted story about friendship—and competition.

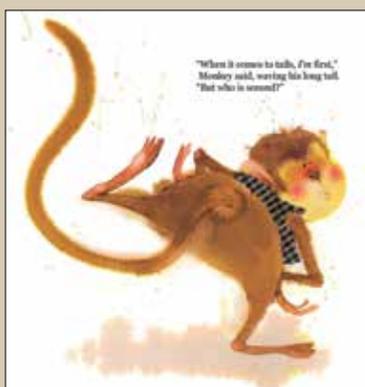

Ae-hae Yoon teaches children's literature and is the author of numerous children's books, including *Flower Shoes*. Hae-won Yang is active with the Korean Publishing Illustration Association and has illustrated many books for children, including *Little Beaver by the Blue River*, *Migaya the Last Bat Princess*, and *The Wolf and the Seven Lambs*.

Math at the Art Museum

Group Majoongmul
Illustrations by Yun-ju Kim

This charming and colorful book incorporates mathematical concepts by introducing children to a fresh perspective on math through art

- **Co-op available**

When his father tells him there's math in art, a young boy is suspicious of the idea. But when the boy explores paintings and other masterpieces with his sister and their parents, he begins to understand there is math in art, both hidden and visible. He sees, too, that math in art is brilliant—and beautiful! Hands-on activities and elementary mathematical concepts that relate to perspective, composition, symmetry, patterns, and other elements in artwork turn exploring art into an eye-opening adventure.

Group Majoongmul is an authors' collaborative that creates books for children. They are based in Seoul, South Korea. Yun-ju Kim studied illustration in London and teaches at the university level. She is the illustrator of *The Boy with the Fire* and *The Chopstick Master*.

The Flying Birds

Eun-sun Han

Illustrations by Ju-kyoung Kim

A charming children's book that creatively incorporates math concepts

- **Co-op available**

When an elderly carpenter takes a walk on a spring day, he soon hears the birds singing. The sounds remind him of a time long ago, when as a young boy he had listened happily to birdsong. The carpenter quickly gets to work on a surprise that delights him and the birds—and soon they are all singing together! Hands-on activities and elementary math concepts that relate to addition and multiplication are illuminated in this gentle story that celebrates nature as well as creativity.

Eun-sun Han is a pediatric psychotherapist and a children's book author. **Ju-kyoung Kim** is the illustrator of several picture books.

Ruffer's Birthday Party

Soon-jae Shin

Illustrations by Min-jung Kim

A pair of friends plan a birthday party as young readers learn basic mathematical concepts

- **Co-op available**

Ruffer the puppy has never had a birthday party, and Nora is determined to make her best friend's big day extra special. There's a lot to do to get ready, and Nora and Ruffer hit some bumps along the way. But with a plan, lots of effort, and teamwork, they cook up a delicious celebration with all their friends—and Ruffer has more fun than anyone! Hands-on activities and elementary math concepts that relate to numbers and operations, including addition and subtraction, expand this story about a pair of clever and resourceful friends.

Soon-jae Shin is the author of several children's books. **Min-jung Kim** has a degree in illustration from Induk University in Seoul, South Korea, and has illustrated many books for children.
